

TO LOAN \$50,000,000 TO HELP FARMERS

Senate Passes Bill to Lend Sum
at Not More Than 5-1-2
Per Cent.

WASHINGTON, June 2.—Another farmers' relief measure, the bill of Senator Curtis (Rep.) of Kansas, to loan up to \$50,000,000 to Federal Farm Loan banks to distribute among farmers at not more than 5½ per cent. interest, was passed today by the Senate, with assurances of early House approval. Passage of the measure was recommended by Secretary Mellon and the Federal Farm Loan Board.

Senator Underwood of Alabama, Democratic leader, and Senator Kenyon (Rep.) of Iowa urged the passage of the bill.

"We might as well recognize conditions as they are," said Senator Underwood. "The country is in a condition of panic, but this money will be returned when normal conditions return."

A joint resolution designed to prevent wholesale importation of foreign goods preliminary to the enactment of a tariff law by Congress was introduced today by Chairman Little of the House Committee on Revision of Laws. It would authorize the President to limit importations for ninety days if he should determine that imports were about to be made in excess of necessities "for the purpose of occupying payment of taxes about to be levied."

The Haugen packer control bill was passed today by the House without a record vote and sent to the Senate. The measure places packing houses and stockyards under the supervision of the Secretary of Agriculture, who is authorized to prescribe regulations.

SURRENDERS, BUT DENIES KILLING TELEPHONE GIRL

Lester Newhall Says He
Wants to Clear Name.

Special Dispatch to THE NEW YORK HERALD.
HARRISBURG, Pa., June 2.—Denying any connection with the death of Josephine Howard, but saying he desired to be taken back to Philadelphia to clear himself, Lester Newhall, aged 21 years, who since the murder of the telephone operator has been sought by the Philadelphia police, surrendered himself here tonight.

Addressing J. Frank Page, a lieutenant of police, Newhall said: "I want to give myself up and go back to Philadelphia to clear myself."

Newhall said it was fear that caused him to leave Philadelphia at that he was innocent of the crime for which the police have been looking for him in Pennsylvania and New Jersey. He left Philadelphia Saturday morning as soon as he had learned of the shooting and death of Josephine Howard.

BOOZE TURNS TO WATER, MYSTIFYING SLEUTHS

2,400 Quarts From Canada
Charged at New Orleans.

NEW ORLEANS, June 2.—Government agents here were endeavoring today to determine how 2,400 quarts of whiskey had changed into water, being transported from a bonded warehouse to a steamer for shipment to Central America.

The consignment, shipped here from Canada, was loaded on a truck, and a leakage in one bottle led to a closer scrutiny, which disclosed that the entire shipment was nothing but bottled water.

MOTHER'S VISION BID HIM ASSASSINATE TURK

By the Associated Press.

BERLIN, June 2.—The trial opened here today of Salomon Tellirian, an Armenian student, who last March assassinated Talaat Pasha, former Grand Vizier and Minister of Finance of Turkey. The accused man related a story of how his mother, who was murdered during the massacres in Armenia in 1915, had appeared to him in a vision and exhorted him to assassinate Talaat in vengeance for the killing of 100,000 Armenians.

BILL GIVES U.S. RIGHT TO PROTECT ALIENS

Permits Federal Intervention
Against States to Uphold
Treaty Provisions.

WASHINGTON, June 2.—A proposal to confer upon the Federal Government power to determine and enforce, even against States, treaty rights which aliens in the United States may be given was introduced today by Senator Kellogg, (Minn.), Republican, in the form of a bill framed by the Judiciary Committee of the American Bar Association. Senator Kellogg said that the measure was put forward to raise the issue and not to apply necessarily to any specific situation.

Senator Kellogg did not care to comment on the possibility that the measure would apply to the Japanese question on the Pacific coast, though the terms of the bill apparently would give the Federal Government power to intervene in anti-alien land proceedings under such acts as the California law in case treaty rights of aliens appeared to be jeopardized.

Under the bill the President would be authorized, when in his judgment any statute of a State or Territory contravened treaty rights of aliens, to instruct the Attorney-General to take up the defence of civil or criminal prosecutions brought by State officials before State courts and to obtain their removal to Federal courts for trial. The Federal courts would take jurisdiction when any acts had been committed against aliens which would constitute crimes under State laws, and penalties similar to those provided in the State statutes would be imposed in case of acts against American citizens. United States marshals and, if necessary, army or navy forces, would be available to enforce decisions.

Under present conditions there is no law authorizing intervention by the Federal Government for the protection of aliens in State proceedings, Senator Kellogg said. The Bar Association bill, he added, was intended to make clear the rights and duties of the Federal Government.

The bill was referred to the Foreign Relations Committee, of which Senator Kellogg is a member. He said his own opinion as to the advisability of its enactment would be withheld to await the committee's report.
